ALTINYALDIZ ULUSLARARASI UZAY SİSTEM KONSTRÜKSİYONLARI SANAYİ ve TİCARET ANONİM ŞİRKETİ

INTEGRATED MANAGEMENT SYSTEM POLICY

- Fully comply with product and integrated management system standards, as well as legal and other requirements;
- Take all necessary measures to ensure occupational safety and provide a safe and healthy working environment;
- Continually improve our operational efficiency to meet our customers' needs on time and cost-effectively;
- Ensure customer satisfaction while carrying out these activities;
- Provide all employees with the necessary information and training to ensure that they recognise, as a fundamental duty, their responsibility not to endanger their own health and safety or that of other employees and visitors;
- Embed a culture of prevention and reduce occupational health and safety risks by systematically assessing the risks associated with potentially hazardous conditions and behaviours across all our activities;
- Mitigate the adverse effects of climate change;
- Recover recyclable waste, reduce the consumption of finite natural resources, and take the necessary measures to prevent pollution caused by environmentally harmful waste across all our activities;
- Ensure continual improvement without compromising the standards of our Quality, Occupational Health and Safety, and Environmental Management Systems;
- Ensure the consultation and participation of workers and workers' representatives;
- Advance Altınyaldız further through teamwork.
